The Automobile: The product of the dreams of a few; the object of the dreams of many. Come share those dreams at the “**ALL NEW TOWE AUTO MUSEUM**” where the cars are showcased in a series of exhibits built around dream themes. Walk-

ing through the museum is like strolling through time. Their vintage collection dates back to the 19th century - when cars were first born. The settings - such as an old-fashioned ice cream parlor - enhance the ambiance of any type of event.

The Towe Auto Museum’s Special Events Area (6,400 sq. ft or 80’ X 80’) is available for rental for a variety of public and private functions. A facade of the old Alhambra Theater lights up and theatrical lighting is available. This versatile area has been used for parties, movie screenings, craft shows, concerts, recitals and more. The newly constructed 1,350-square-foot Education Center is perfect for sales meetings and seminars. It is completely private, soundproof and climate controlled.
